Join us in Milan

We are delighted to offer you and your company the chance to be part of the 9th ID WORLD International Congress, taking place in Milan, Italy, on 16th, 17th and 18th November 2010. For the past six years, the ID WORLD International Congress has been the premier international event focusing on automatic ID and 2010 promises to exceed past years in content and attendance.

We offer outstanding opportunities for your company to speak, exhibit, sponsor or advertise at ID WORLD 2010. Whatever you choose, you are guaranteed the maximum exposure to a highly targeted audience of delegates and visitors directly involved in the shaping of our future security and tracking infrastructure.

Congress Format

ID WORLD 2010 will run over three days in November. An extensive conference program of plenary sessions, breakout seminars and workshops, as well as a rich agenda of networking initiatives, seller-procurement meetings and new product and technology launches, will ensure that delegates and exhibitors get maximum value from their participation. The four cornerstone initiatives of ID WORLD - Conference, Exhibition, Exchange and QUID - facilitate networking and knowledge-sharing among high-caliber delegates and attendees, making the event an unrivalled platform for generating new business and exchanging ideas. You need to be at ID WORLD! It's difficult to imagine a more concentrated gathering of influential members of the worldwide community interested in automatic identification.

Get involved

One Location, Four Cornerstone Initiatives, Infinite Possibilities

The ID WORLD Conference

is the ideal independent forum where you can learn from your peers, talk to the experts and ensure your products and services are branded in the minds of the right senior decision-makers. Exclusively, thanks to a premium fee, the conference has established itself as the leading networking and knowledge sharing appointment of the year.

The ID WORLD Exchange

is where senior buyers and influencers source the latest technology and evaluate the best and latest offerings and skills in the market - all under the same roof as the ID WORLD Conference and Exhibition. This boutique has established itself with the brands "Meet the Buyer", "Meet the Investor" and "Meet the Recruiter".

The ID WORLD Exhibition

is the perfect environment to showcase your products, introduce new services or solutions and engage in face to face marketing with your target audience. Free of charge to visitors, the ID WORLD Exhibition aims to create a highly cost-effective marketing solution for your company and a platform to build new relations.

The QUID Initiative

addresses and targets the local audience in Italy interested in the adoption of identification technology. It holds specific conferences in Italian and has a dedicated exhibition hall. QUID runs in tandem with the ID WORLD Conference and Exhibition, which is held in English and aimed at the international global audience.

RFID

Radio frequency identification technology is a cornerstone of the emerging 'Internet of Things', connecting people, objects and places. Its influence is seen in all areas - such as transport and logistics, real time location and supply chain, as well as key secure ID sectors in eGovernment, defense and healthcare.

Smart Cards

Continuous expansion in smart cards has fuelled the industry's growth in countries and industries across the globe. This, coupled with the need for maximum ID security in many sectors, continues to drive technology advancements in the rapidly emerging world of mobile and contactless solutions.

Biometrics

The widespread integration of biometric technology of all types into secure identification devices and processes, demonstrates the impact both mature and emerging biometrics are having on sophisticated systems for improved security and efficiency in access, authentication and identification.

Data Collection

Modern methods of data collection continue to proliferate all sectors involved in the flow of products and information. The barcode remains the most widespread means of collection and with evolutions, such as 2D, continues to hold its place in AIDC, along with process innovations in electronic data transmission.

The World's Premier Technology Event for the Automatic Identification Industry

ID WORLD is a must attend event for all parties involved in auto ID

ID WORLD 2010 highlights

NFC Academy Conference & Exhibition

2nd Edition

After last year's successful edition in Milan, with top level worldwide attendance, including a keynote from Suvi Lindén, Finnish Minister of Communications, the NFC Academy is established as a premier high-end technology initiative. Its aim is to provide opportunities for high-caliber networking and knowledge sharing on NFC technology deployments in advanced contactless applications and features a 3-day conference and 2-day exhibition. www.nfcacademy.com

Postal Innovation

Postal Innovation is the world's first forward thinking high-end technology congress, featuring a 3-day conference and 2-day exhibition offering a showcase of the most advanced technologies and applications for postal and express shipping services, and illustrating how they can best be implemented on a global scale to improve business and create new sources of revenue. www.postalinnovation.com

Sectors Covered

With its outstanding impact on our IT and security infrastructure, automatic identification will be at the core of a revolution affecting numerous processes in all major vertical industry segments.

Hot sectors impacted by auto ID:

- Automotive
- Consumer Products
- Distribution & Retail
- Fashion
- Financial Services
- Food & Agriculture
- Government
- Healthcare
- Hospitality & Entertainment
- Manufacturing
- Pharmaceutical
- Postal & Express Shipping
- Public Transportation
- Security & Law Enforcement
- Sport & Leisure
- Transport & Logistics
- Telecommunications
- Waste Management

“ ID WORLD International Congress: all the technologies, all the vertical markets and all the implications of automatic identification in today's ICT society ”

Who Should Attend

ID WORLD provides extensive learning and networking opportunities, as well as a full-scale showcase of auto ID solutions.

Positions invited to attend:

- CIOs, CTOs, Directors, Managers of ICT/IS
- Government Representatives (incl. Interiors, Economy, Labor, Regulatory, State Affairs)
- Directors, Managers of Sourcing/Procurement
- VPs, Directors, Managers of Supply Chain, Logistics, Distribution, Transportation
- HR Managers, Facility and Security Managers
- CxOs, Operations Managers of Airport, Seaport, Railroad, Public Transits
- Law Enforcement Officers mandated with Border Control and Public Security
- Authorities involved in Security, Safety, Data Protection, Transportation, Communication
- Systems Integrators, Distributors, Resellers
- Manufacturers, Designers, Vendors
- Venture Capitalists, CFOs, Investors
- Researchers, Business Analysts, Consultants
- Project/Program Managers and other professionals involved in auto ID projects

ID WORLD 2009 in Figures

162 speakers
(72 of them CEOs)

108 exhibitors
(22 of them new)

A growing, vibrant event

ID WORLD is all about identification.

The event showcases the very latest in identification technology from the world's market leaders. It offers a rich and informative program of conferences and networking opportunities covering practical, technical and business issues associated with the adoption and implementation of identification technologies such as RFID, biometrics, smart cards and data collection.

Every year, the ID WORLD International Congress attracts a diverse mix of international, high caliber industry and government representatives, making it the event of the leaders for the leaders.

The ID WORLD International Congress has consolidated its position as the most comprehensive and highly targeted global summit on automatic identification.

In 2009, the ID WORLD Exhibition drew 2,608 visitors from more than 70 countries.

aleh Alkubaisi, Dir. of Information System Dept. - Min. of Interior, Qatar

What the ID WORLD 2009 participants said about the event!

"Simply the best conference and congress that I have ever attended. Incredibly well-organized, excellent roster of speakers, and the highest percentage of qualified leads among attendees that I have seen in my 25 years in the industry."

Steven Singer
CEO - ABnote

"I very much enjoyed the conference. It was exciting to hear about NFC and other new technologies. Above all, I really had plenty of time to concentrate on the subjects as well. I will be following with a great interest how things develop in the sector."

Suvi Lindén
Minister of Communications - Finland

"Many thanks for the invitation to attend ID WORLD, you have managed to entice an excellent caliber of individuals to the conference. I hope I added value and will be back next year."

Gareth Warner
Advisor - South African Government

"Congratulations to all the ID WORLD team for the huge and successful event that the ID World International Congress 2009 was."

RK Bajaj
Commissioner, Income Tax Department - India

"I would like to compliment you for yet another successful, well organized and stimulating ID WORLD event (not forgetting of course the Sustainability Summit)."

Martin George
CEO - Smart Sensors

"I would like to congratulate you and your team for having put this very interesting event in place and to have succeeded to the challenge for having brought all these worldwide specialists together. This was a great performance. ID WORLD 2009 was a great vintage. We are all convinced now that, despite a notable slowdown in 2009, the general business is slowly going to take a cruising speed again."

Béat Clerc
Business Development Manager - NagralD

"I would like to give you a formal "thank you" for hosting a great event. As always, ID WORLD is setting the standard in valuable ID conferences and events. Thank you and I look forward to 2010."

Peter Collins
President - A2B Tracking Solution

ID WORLD Events
hosts once again
content rich
conferences that
attract an incredible
mix of international
high caliber
representatives
in the world of
security and
mobility

In the lead up to the ID WORLD International Congress in November 2010, Wise Media will deliver an extensive, global marketing campaign to ensure a highly targeted, qualified global audience of end-users, systems integrators and industry suppliers.

- **email marketing:** regular e-mail blasts promote program updates, key dates and featured speakers to over 50,000 email contacts.
- **website & internet:** as the main information distribution channel, they are regularly updated with the latest news.
- **print collateral:** brochures and flyers mailed out and distributed at major international events, are used to stimulate interest and provide key details.
- **advertising:** ad campaigns appear in publications and journals at key times to promote important aspects of the event such as program initiatives.
- **media exposure:** editorial contributions are a key aspect of the marketing mix, drawing on both specialist and general media outlets.
- **ticket distribution:** multichannel ticket dissemination (both paper based and in electronic format) is used to foster the participation of the target audience.

Organized by
>>> wise media

Wise Media delivers high quality, leading events within the most promising high-tech sectors. Our conferences and forums address emerging and disruptive technologies, are future focused, analyze market and technology trends, provide strategic insight and showcase practical solutions. Wise Media's events provide an optimum environment in which to share best practices

and are attended by senior decision-makers, leading industry specialists and pioneers, entrepreneurs, government representatives and investors. Delegates and visitors attend from all over the world. Accurate and timely, vendor neutral and technology agnostic, our events provide a one-stop shop for the industry, whilst encouraging and facilitating new business relationships and networking.
